ACCESSORIES FOR MEDICAL DIAGNOSTIC EQUIPMENT

Neurosoft Company has been manufacturing and supplying the medical facilities of the world with the complex equipment for neurophysiology and electrodiagnostics for more than 20 years.

We guarantee our customers the high quality of our devices, constantly updated software and after-sale service during the whole warranty period.

However to ensure the optimal performance, the device shall be equipped with the high-quality and reliable accessories and consumables. That is why we manufacture the most part of the accessories for our devices ourselves using the components from Russia, Germany, France, the USA and Italy. Each produced item is carefully checked and tested together with the supplied device.

Besides we purchase and supply the qualitative video and computer equipment compatible with our devices.

You have the Neurosoft catalogue in your hands. It describes in details the supplied items, their specifications and also the order code. You can just select the required item, inform the manager of sales department using e-mail address indicated on the last page of the catalogue and be sure that you get exactly what you need.

* We reserve the right to improve the design and specifications of the described products at any time without previous warning.
